EXPERIENCE

**Frontend Developer , Intern**
Rejola IT Services
03/2024 - Present
Chennai

- Frontend interface developed with React.js through component creation, state management, and routing. Communication is established with the backend via API creation and data consumption.
- Developed responsive web applications using ReactJS, translating design mock-ups into interactive user interfaces with a focus on performance and scalability
- Assisted in implementing state management with Redux, ensuring efficient data flow and synchronization within the application.

Full Stack Web Development , Intern
DLK Technologies India Private Limited
09/2023 - 11/2023
Chennai

- During my internship at DLK Career Development, I gained valuable hands-on experience in web development.
- eveloped authorization with bcrypt.js (salt-hashing) and the back- end functionalities utilizing express.js and MongoDB database.
- I actively contributed to various projects, gaining exposure to different aspects of web development and honing my skills in JavaScript, HTML, CSS, React.js, and other technologies

SKILLS

JavaScript · React JS · NodeJS · Html 5 · CSS 3 · BootStrap · Java · Git · MongoDB · Aws · MySQL · Express · Mongoose · Tailwind Css · DaisyUi

PROJECTS

Gmail Clone
- Technologies : React JS, Material Ui, Tailwind Css , Express JS, Node JS, MongoDB, Nodemailer **MERN Stack (Live)** 🔗
- This project aims to replicate the basic functionalities of Gmail, providing a platform for users to send, receive, organize, and manage emails **(Code)** 🔗
